Zehnder designer radiator colours: Just as individual as you. Colours – scientifically they are the visual perception of electromagnetic waves. Emotionally – they are an expression of our personality. From our choice of clothing to our living environment: Colours bring out our individuality and define who we are.

As a design specialist, Zehnder attaches great importance to its language of form and the colour design of its products. This is why Zehnder designer radiators are available in many vibrant colours and surface finishes. Our range is always state of the art: With 15 new shades of colour and three new colour categories you now have even clearer and more up-to-date choices.

Zehnder's new Architectural, Tonic and Natural categories provide three coherent colour schemes encompassing all the related colours and shades. Organised variety, which helps you to find the right colour for your designer radiator, your environment and your personality.

Architectural

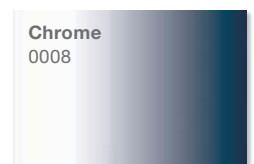

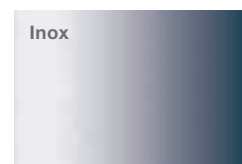

Clear, analytical, puristic: The colours in the Architectural category are defined by their modern, urban objectivity. True to Mies van der Rohe's maxim that "less is more", this pallet of colour is characterised by its poised reservation, giving precedence to the design.

Standard

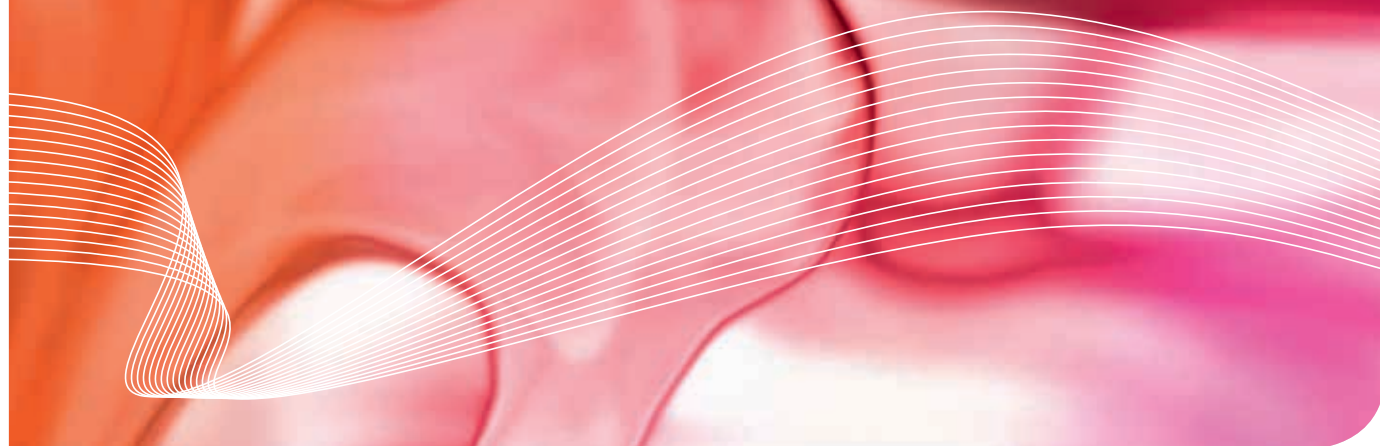

Surfaces

Tonic

Fresh, dynamic, expressive: Tonic stands for the more intense shades in the colour scheme. This category caters to living environments shaped by their boldness and confidence. Vibrant and striking, these colours create an inviting, lively atmosphere.

Lemon 0515 *	Traffic Yellow RAL 1023 / 1023 *	Orange Quartz 0528	Flame Red RAL 3000 / 3000 *	Ruby Red RAL 3003 / 3003 *
Mauve 0517 *	Violet 0518 *	Strawberry NCS-S-2065-R20B / 3770	Dark Purple 0848	Amethyst Quartz 0516
Lichen NCS-S-2010-G60Y / 8723	Spring Green 0846	Pacific Blue 0519	Horizon Blue 0520 *	Prussian Blue 0555 *

*These colours have a glossy finish, all others are matt.

Some colours/surfaces are only available for selected products. RAL and NCS are markings of the manufacturer. Despite the utmost care in producing this colour chart and in the painting of our radiators, slight deviations in colour are possible depending on the production series and the surface that is painted on (ceramic, paper, metal...).

Natural

Warm, connected to nature, simple: The range of colours in the Natural category. These gentle, natural shades give radiators and the surroundings a peaceful, pleasant touch. Ideal in the design of bathrooms and living rooms to provide an inviting feeling of comfort.

Edelweiss 0067	Cream RAL 9001 / 9001*	Pergamon 0081*	Jasmin 0072	Oyster White RAL 1013 / 1013*
